

**Lower Great Southern Hockey Association
Blanket Dispensations
2018 Season**

Aim

To simplify player movement between A and B grade divisions

Proposal

- Each team to nominate to the Association seven (7) *core* players prior to the season starting;
- Core players are can only play A-grade for the duration of the season;
- All other players can move freely between A and B grade without any restrictions on the number of games played;
- Players may play for different teams across divisions but must 'pick-and stick', in other words, choose a team in a division and stay with that team unless a clearance is obtained to play for another team in that division;
- During finals, players who have played across multiple divisions are eligible to play finals for B-grade only if the majority of their games have been played for B-grade; all players who have played across multiple divisions are eligible to play finals for A-grade;
- If a Core-7 player should become injured or ineligible to play or leaves the competition, the relevant team should replace that player.
